ARCHAEOLOGICAL SOCIETY OF CONNECTICUT  
NUMBER 69  
2007

*Special Thematic Issue*

Pipeline to the Past:  
Archaeology of the Iroquois Gas Transmission System Project

**Route of the Iroquois Gas Pipeline from the Canadian border to Long Island Sound**

**LUCIANNE LAVIN, EDITOR & DAVID A. POIRIER, GUEST EDITOR**

## THE ARCHAEOLOGICAL SOCIETY OF CONNECTICUT

President: Daniel Cruson  
Secretary: Robyn Swan Filippone (NCC)  
Treasurer & Membership: Don Malcarne  
Editors:  
    Bulletin: Lucianne Lavin, Ph.D.  
    Newsletter: Lee West (AMS)  
Directors at Large: Dawn Brown (NCC), Rob Wallace (NCC)  
E.S.A.F. Rep: Ernie Wiegand II (NCC)  
Connecticut State Archaeologist: Nicholas Bellantoni, Ph.D.  
CT State Archaeological Center, U-1023, 2019 Hillside Road, University of Connecticut, Storrs,  
CT 06269-1023, (860) 486-5248.

The *Bulletin* is published by The Archaeological Society of Connecticut, Inc. It publishes original papers primarily on the archaeology, anthropology, ethnohistory, and related topics of Southern New England and Long Island Sound. Articles, reports, comments, letter, and book reviews should be submitted in duplicate on good quality bond paper, double-spaced, with wide margins and with electronic copy. Manuscripts and especially the references should be submitted in American Antiquity style. See *American Antiquity* (1983) 48(2):419-422 and *Bulletin* 49 for a detailed style guide. Exceptions will be made by the editor to accommodate camera-ready copy from word processors and computer printers not capable of the range of fonts and special characters available to typesetters. Original illustrations, which may be subject to photographic reduction and/or cropping, should measure either 5" high and 6.5" wide for a half page of 6.5" wide and 8" high for a full page. Captions should be typewritten on a separate sheet and correlated to the figures. The number of illustrations will depend upon relevance. If illustrations or parts of the text have been previously published, or are not original, full acknowledgment of permission must be included. Line illustrations should be drawn on heavy quality white artist's paper with reproducible black ink. PMTs are a preferred alternative. All measurements must be reported in the metric system. When site units have been excavated using the English system, measurements may be reported in both systems. In reporting radiocarbon ages, give age, data, and laboratory number, e.g., 11,950 $\pm$ 100 years BP, 10,000 B.C. (Y-756). Date alone can be used in subsequent citations. Use chemical symbol, 14C, not C14. This is the form used to report dates in *Radiocarbon*, the official journal for publication or original date lists.

Authors must assign the copyright for their articles to the Society. All graphic submissions for accepted articles will be retained for any future reprinting. Please send all mss. to the editor, Lucianne Lavin, Institute for American Indian Studies, P.O. Box 1260, Washington, CT 06793.

Requests concerning membership, missed issues, back issues, and Society dues should be sent to Don Malcarne, ASC Treasurer, 10 South Cove Lane, Essex, CT 064 26-1422.
